

Take back your tube system.

FEELING TRAPPED?

Pneumatic tube systems are an essential tool for transporting time-sensitive items throughout a healthcare facility. The expense and delays associated with using valuable staff members to perform these deliveries are unsustainable and detract from patient care. Some tube system companies have realized this and have begun holding their customers hostage by charging astronomical software licensing and maintenance fees.

THERE'S A BETTER WAY

Colombo is once again proving why they continue to be an industry leader after nearly five decades.

We can revive your tired old system for a fraction of the cost it would take to install a new one by converting your antiquated system to a modern Colombo system.

FEATURES

- Colombo's computer controlled systems feature solid state controls and touchscreen operation
- With Ethernet connectivity you can monitor and maintain the system from anywhere
- Touchscreen displays provide comprehensive system features and simplistic operation
- No complex menus to navigate
- Training takes a matter of minutes for operators

OPTIONAL FEATURES

- RFID tracking
- Proximity card readers
- Biometric security

Restore performance and reliability

SUPRISINGLY AFFORDABLE

You don't have to limp along for years with a dysfunctional system or reluctantly stick with a company that charges outrageous software fees.

Removing an existing tube system and installing a new one is a large capital expense, but Colombo can use your existing system's stations and tubing, remove the electronics and install all new modern touchscreen controls and software.

Colombo's team of skilled installers, technicians and IT professionals are leaders in the industry. When it comes time to upgrade your system you can depend on us to get you up and running with minimal disruption to your operations.

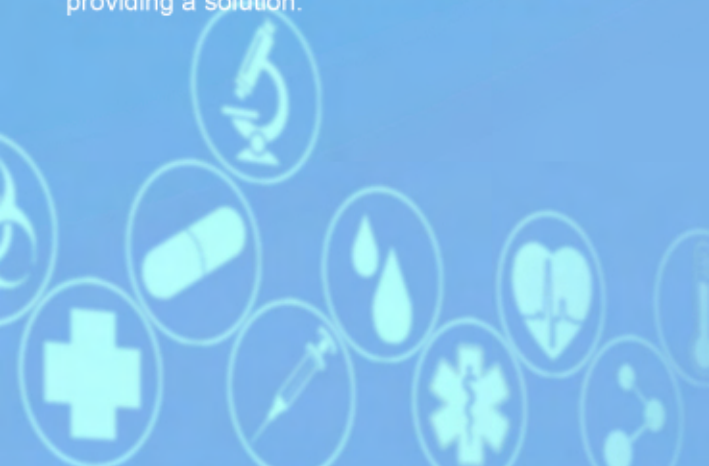

WHY MAKE THE SWITCH?

- No annual fees
- Fraction of the cost of a new system
- Highly trained, experienced staff
- Preventative Maintenance contracts available
- Optional software upgrades
- Five decades of experience

Colombo Sales & Engineering, Inc built its business on innovative products and dedicated customer service.

Integrity is what has made us an industry leader for a half century. We stand behind our products and work closely with our customers to make sure we're not just selling them a product, but providing a solution.
